

Southeast Louisiana Flood Protection Authority - East

Request for Qualifications for Support Services (Architectural / Mechanical / Electrical / and other Facility Services

Addendum No. 1 **August 16, 2021** **Questions / Answers**

Q: Referencing the SF 330 format:

Is the FPA looking for 1, "combo" SF 330 form with resumes and projects, etc. representing the experience of the entire team (prime + all subs), or is a separate SF 330 required for the prime and each sub?

If the FPA wants 1, "combo" SF 330, can we include more than "10, Item F" projects for the prime + subs because of the variety of services being requested?

A: The requirements are for one single ("combo") SF 330 form. Limit shall remain at 10 projects.

Q: Are firms able to bid and potentially win on individual numbered items under the Scope of Services, such as bidding on item 4., Security Assessment and Design, and 5., Fire Protection System Design, or must bids be submitted for items 1-6 as a package?

A: IDIQ Contracts will not be awarded based off of individual scope items. We encourage the formation of teams among firms.

Q: Will SLFPA-E give preference to organizations that bid on items 1-6 in Scope of Services as a package, or will it not affect award outcomes?

A: SOQ's will be evaluated / ranked based off all scope items collectively.

Q: Are subcontractors/subconsultants required to submit a complete Standard Form 330? If so, are originals required? Do you have a preference of single-sided or double-sided originals?

A: The requirements are for one single (“combo”) SF 330 form per submittal / team. Copies are acceptable, single sided.
